SIXTH ELEMENT

DEVIL RED EDITION

THE PROFESSIONAL SERIES

Red

"Value Series" : Best VALUE gaming cases with the highest C/P Ratio (Cost to Performance ratio).

"Professional Series – Red label" : Super tower or Super mid-tower cases with elegant, clean line designs.

"Aluminum – Silver label" : Unique "Full aluminum" cases targeting at power users, professionals and gamers.

"Ultimate Gaming Series – Black label" : Ultimate gaming cases targeting at the extreme gamers. This Series offers gamers with most functions, expandability and Extreme cooling.

"Compact – Blue Label" : Small form factor case series including cube cases, mini-ITX and Mini-Tower (Micro-ATX).

Sixth Element Devil Red Edition

As mysterious as its name suggests, the new 6th Element case is constructed with simple geometric shape in mind that makes up its uniqueness and stands out among the crowd.

This chassis is solidly constructed in 0.6mm SECC Japanese steel and beautifully finished both inside and out. Not only the chassis is beautifully finished in All Black (both interior and exterior) color, the "PCI covers", "MB Plate", "Removable HDD cage" and "screw-less kits" are high-lighted in blue color (Blue Edition) or Red color (Devil Red Edition) to make the chassis as UNIQUE as its exterior design.

Moreover, the 6th Element is extremely "User-Friendly" and it gives gamers great expandability and versatility. Its "Screw-less" features and pre-drilled holes on the Motherboard plate for cable routing make this chassis an easy install. The Pre-drill cable routing holes are also protected by high quality rubber to prevent cable damages from sharp edges. A CPU hole is also pre-drilled on the MB plate for ease of cooler assembly and removable.

This chassis offers great expansion capabilities. It can support 4 x 5 1/4" devices, 1 x 3 1/2" device (external) with converter bracket (included) and 6 x Hard Drives. The chassis is also deep enough to support Long High End VGA cards up to 400mm in length (when the middle HDD cage is removed). With the Middle HDD cage installed, the chassis can support long VGA cards up to 280mm in length.

It maximized airflow with fans including front in-take 14cm fan (included), Top Exhaust 14cm (included), Back Exhaust 8 or 12cm fan (optional), and 2x12cm or 14cm side panel fans (optional). A removable PSU dust filter is included to prevent dust entering your computer.

It is an ultimate gamers' choice!

Superb airflow - install up to 5 fans !!

1. Front - 1 x 14cm RED LED fan included
2. Back - 1 x 12cm fan (optional)
3. Side - 2 x 12 cm fans (optional)
4. Top - 1 x 14 RED LED fan included

Pre-drill pipe holes for water cooling w/meshed PCI slot "High Quality Mesh PCI Cover"

Filter included to prevent dust from entering PSU

400mm

Sufficient depth of chassis for installing long cards (HDD cage removed)

Pre-drilled holes for cable management "with Rubber protection".

Tool-free for 5.25" bay

HDD Cage is removable

HDD cage fits three HDDs (screwless)

HDD tray supports 3.5" HDD and 2.5" SSD
