

XPREDATOR

THE ULTIMATE GAMING SERIES

EVIL GREEN EDITION

Are You Game Enough?

Ultimate Gaming Series

"Value Series" :
Best VALUE gaming cases with the highest C/P Ratio (Cost to Performance ratio).

"Professional Series – Red label" :
Super tower or Supermid-tower cases with elegant, clean line designs.

"Aluminum – Silver label" :
Unique "Full aluminum" cases targeting at power users, professionals and gamers.

"Ultimate Gaming Series – Black label" :
Ultimate gaming cases targeting at the extreme gamers.
This Series offers gamers with most functions, expandability and Extreme cooling.

"Compact – Blue Label" : Small form factor case series including cube cases, mini-ITX and Mini-Tower (Micro-ATX).

Aerocool is proud to present the new "XPREDATOR-Evil Green" under the PGS-B (Black) label. This ultimate gaming case is both sleek and aggressive in design and it features higher performance and innovative functions, superb airflow, easy installation and supports today's latest and hottest CPUs, motherboards, graphic cards and technology such as USD3.0 devices and Solid State Drives.

This case is solidly constructed in 0.8mm and 1.0mm SECC Japanese steel and beautifully finished both inside and out.

The XPredator "Evil Green" edition is beautifully finished in Black/Green combination - ie. the PCI covers, MB Plate and screw-less kits are high-lighted in Green color to make this case UNIQUE and stands out from others.

The XPredator case is designed with "User-Friendly" concept in mind and it gives gamers great expandability and versatility.

Its innovative "Screw-less" features and 90 degree rotated HDD cage make this chassis an easy install. Cable routing holes are pre-drilled on the MB plate so users can eliminate the cable mess inside the chassis by hiding the cables and wires behind the MB tray.

These pre-drilled holes are also protected by high quality rubber to prevent damages and cuts to the cables. A CPU hole is also pre-drilled on the MB plate for ease of cooler assembly and removable.

This chassis offers great expansion capabilities. It supports 6 x 5 1/4" external devices, 1 x 3 1/2" external device with converter bracket (included) and 6 x Hard Drives (either SSD, 2.5" HDDs or 3.5" HDDs).

The chassis is also deep and large enough to support High End VGA cards up to 330mm in length and the latest XL-ATX Motherboards such as Gigabyte's latest X58-UD9 Motherboard.

The XPredator case comes with 10 x PCI slots and give users the option to set up Quad SLi systems - up to 4 VGA cards.

The chassis is also wide enough to support High End CPU cooler up to 190mm in height.

Its maximized airflow with 8 fans including a front in-take 23cm Green LED fan (included), a Back Exhaust 12/14cm fan (optional), a top in-take 23cm fan (included), 1 x 12/14cm bottom in-take fan (optional) and 4 x 12cm/14cm or 1 x 18/20cm in-take side panel fans (optional). In addition, 2 sets of fan controllers are provided to control these fans.

Other advance features included pre-installed rubber grommets for HDDs and PSU to reduce vibration during system operation. Quad water-cooling holes are pre-drilled to support high end water-cooling systems. A Super Speed USB3.0 port is included to support the latest technology.

The XPredator case is as close as it gets to a "DREAM" case !!!

Superb airflow - install up to 8 fans !!

1. Front - 1 x 23cm fan Green LED(included)

2. Back - 1 x 12/14cm fan (optional)

3. Side - 4 x 12/14cm fans or / 1 x 18/20cm fan (optional)

4. Top - 1 x 23cm fan (included)

5. Bottom - 1 x 12/14cm fan (optional)

Shell-like vent structure design give an unique look

Provide easy access to CPU cooler's back plate

Large vent holes for PSU installed at bottom of case for great air flow

Tool-free for 5.25" bay

Storage compartment with anti-slip rubber pad

Pre-drilled holes for cable management "with Rubber protection".

Dust filter for the bottom vent holes

Squeeze and pull HDD tray

Specially designed for USB3.0 cable management

Top air intake 23cm fan

Tool-Free for PCI slots

Front air intake 23cm fan with LEDs

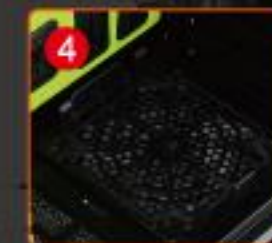

Pre-drilled water pipe holes with one of them for USB3.0 cable

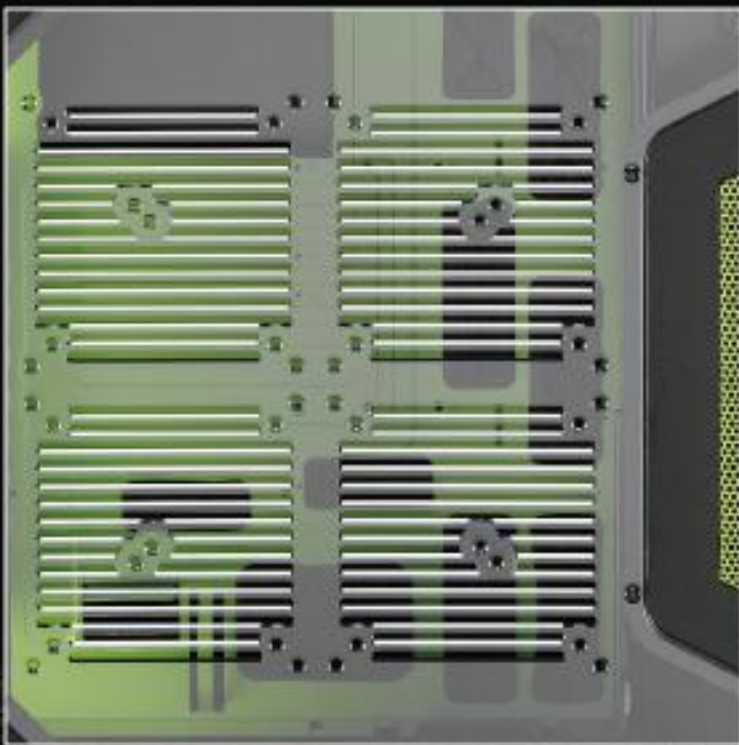

Open and shut switch for the top ventilation

Sufficient depth of chassis for installing long cards

Can install 1x14 or 12cm fan with fan filter
